

# Enhanced the transparency framework in Cote d'Ivoire

29th June 2017  
ACF 2017 – Plenary 4

**Richemond Agré ASSIE**  
*UNFCCC National Focal Point  
TNC & BUR<sub>1</sub> National Coordinator  
[r.assie@environnement.gouv.ci](mailto:r.assie@environnement.gouv.ci)*

# Quick overview

- Sept. 2015 : Submission of our INDC to the UNFCCC's Secretariat
- March. 2016 : Adoption of the national **Road map for INDC's and Paris Agreement** implementation
- Oct. 2016 : Rattification of the Paris Agreement
- Dec. 2016 : Adoption of the **national framework on transparency (NFT)** to follow-up the NDC's implementation actions.

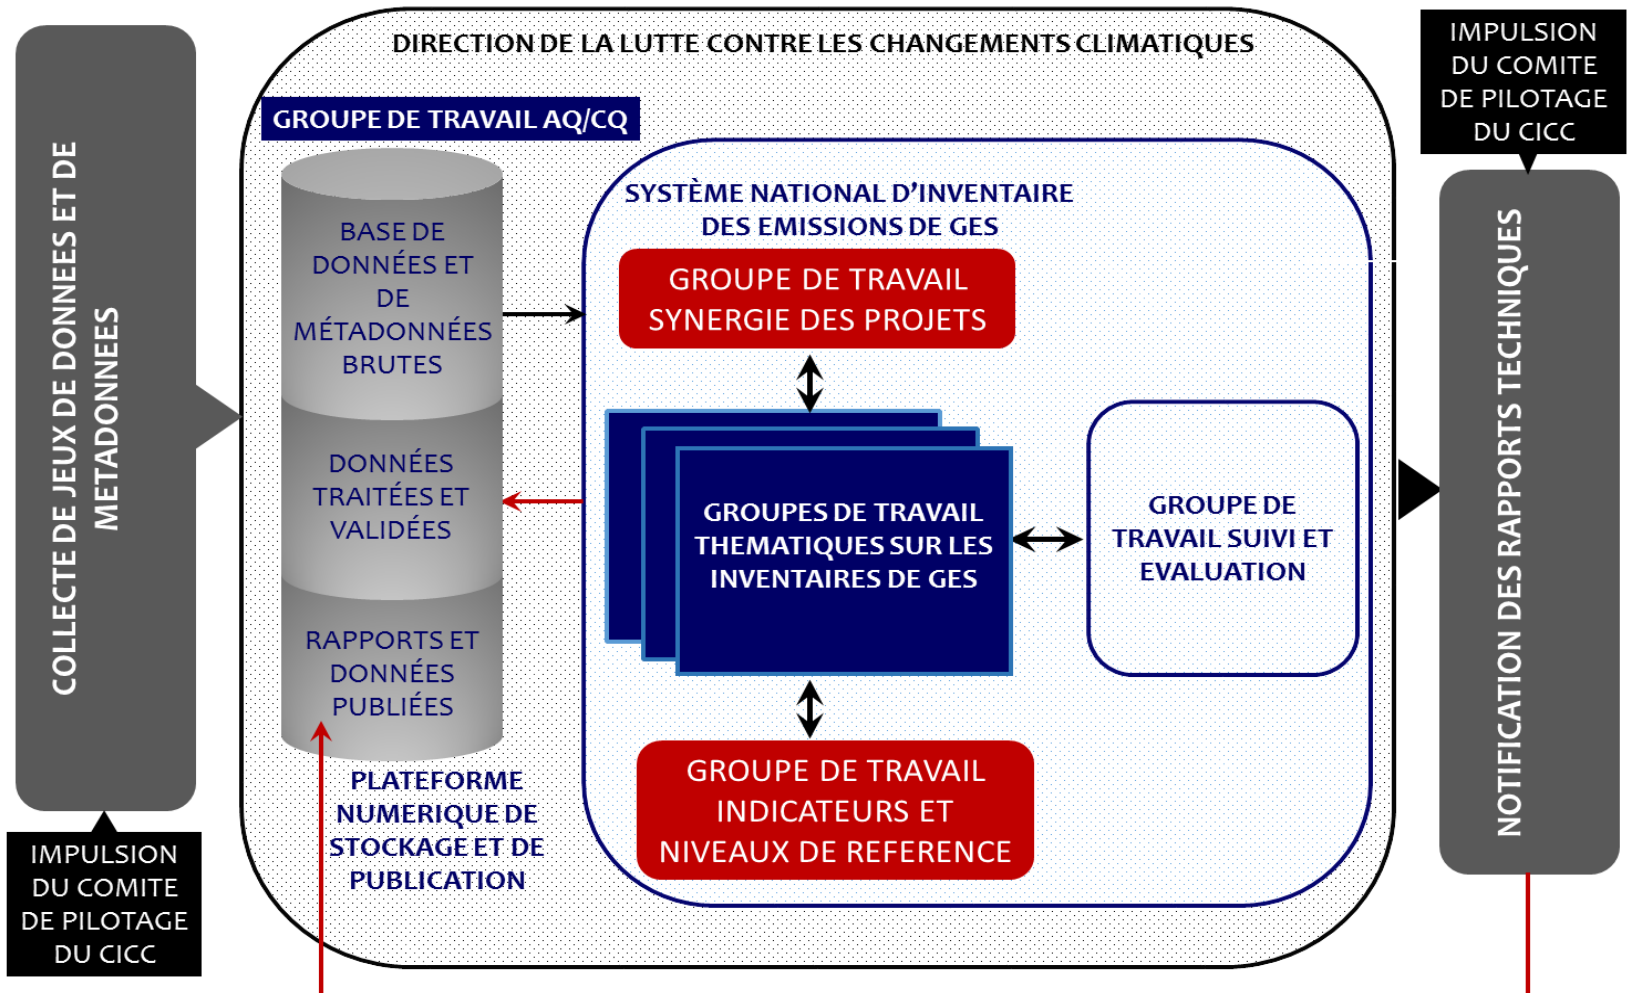

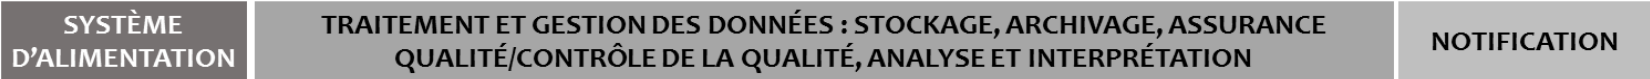

# Objectives of our NFT

❖ The vision: *"Be sure that we are on the right way of our low emission and resilient development strategy"*

❖ The objectives:

- Follow-up the **implementation of all actions identified in our NDC** ;
- Supporting **capacity building of all national stakeholders** ;
- Creating awareness within **national institutions** responsible for data collection, inventory compiling and inventory archiving ;
- Identify different options in order to increase our ambitions for future NDC.

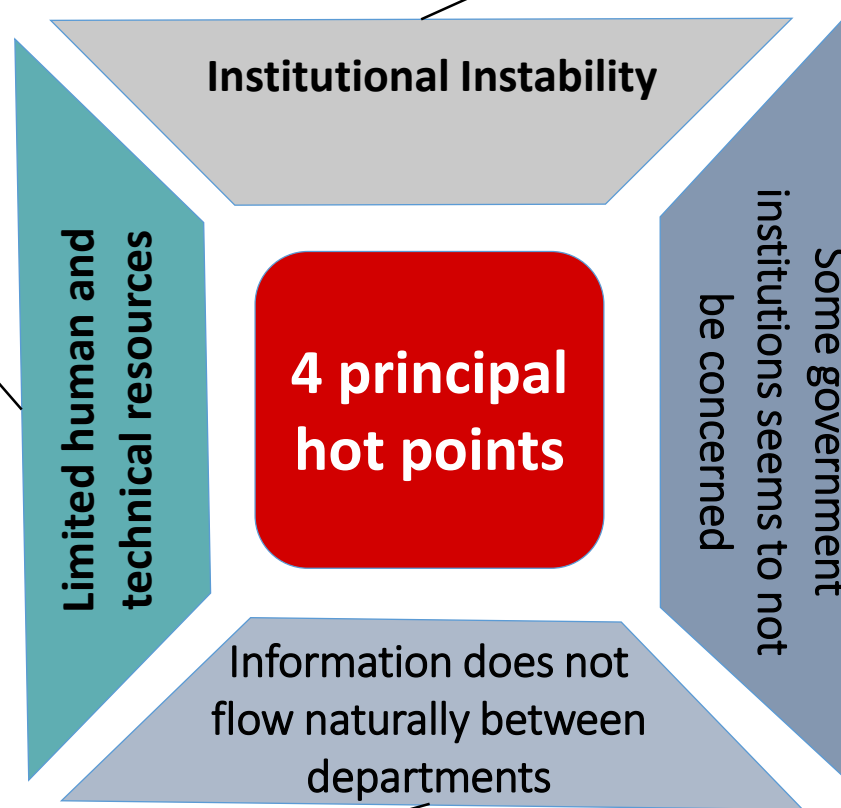

# Challenges and Responses

A strong legislative framework, notably fed by inter-ministerial regulatory texts (CICC)

- Dev. of a national capacity-building plan
- Mobilization of financial resources for IT and measurements equipments

Sensitize and mobilize all stakeholders and development of a climate business plan based on our NDC

- Dev. of electronic interconnected platform (SIE, SGIE, DB GES, etc.)
- MoU
